....A STATEMENT.....

After forty years of growing flowers of all kinds because of his pure love for the good earth and all sorts of growing things our father has finally realized his life long ambition to be in that business. In the year 1940 the writer, the oldest of the family of boys started growing a few glads as a hobby but it was not long before "The Bug" bit him and he was lost to the other things he loved to do out-of-doors like sailing and sculling and he soon found that the growing seasons couldn't roll around fast enough to get in all the pent up interest he was storing up during the off seasons...and some of you surely know what we mean....

Well, anyhow it wasn't long before Dad just couldn't keep his hand out of the "kettle" and so there was now two cooks...and his hobby "chess" soon became a winter evening's pastime (when catalogs were not out yet). Then, after three years of growing and showing brother Russell began to get interested. He had spent some eight of ten years in Texas in the Citrus fruit business so tractors and cultivating, plowing and digging, spraying and harvesting were not new to him..but..those beautiful flowers were something that had just managed to escape his close scrutiny, so low and behold another convert was made...So now there are three GLADIOLUS NUTS and a "ton of work." Our little city lot of Glads has now grown into six acres and our original twenty varieties or so has now become close to four hundred, not counting our own seedlings, and new introductions on trial. This past season we had two and a half acres of bulblet stock alone in and if that isn't work to do then the writer doesn't know what work is. Nevertheless, we have completed our first year as a business partnership and the results are very gratifying to say the least.

In submitting this list for your perusal and approval we wish to make one thing absolutely clear....(That one thing adds up to several)...

- A- From this moment on so long as we are in bulb and cut flower business YOU must be satisfied... Whether it is only cultural information you want or an opinion about some variety we grow or do not grow you may be very sure that we will do everything possible to be honest with you and ourselves in getting the information to you as quickly as possible and in as frank and equitable a manner as is within our understanding to give. All orders must meet with your unequivocal satisfaction or we will accept immediate return of same and your money will be cheerfully refunded. We cannot assume responsibility for crop failure.
- B- On our own behalf we pledge that we will send out nothing that is not State inspected, free from disease and harmful insect pests and true to name as advertised.

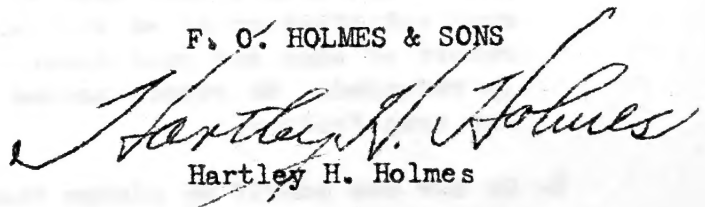

C- It is further our sincere hope that since there are now some three thousand or more varieties in commerce that we can contribute some measure of horticultural excellence to the growing of GLADIOLUS by not introducing thru our lists varieties which in the opinion of the country's best Trial Ground authorities are not worthy to be introduced to commerce. We have spent many a dollar on varieties which performed well in the originator's gardens but for reasons which took hours of concern and wasted back breaking work to find out why, never performed in a manner satisfactory to us in our cut flower gardens. We hasten to say however, that we own and will continue to disseminate some wonderful gladiolus varieties which are purely for show table culture or arrangement work and those will be advertised as such....

Every bulb in our planting is put in by hand and dug by hand...also cleaned by hand...Our bulb storage is gassed regularly and all bulbs are dusted with DDT after being cleaned...as well as having been State inspected. We have done our utmost to have our prices in line with most reputable catalogers and wholesalers and while we may be undersold by some on prices we don't intend that any shall "outsell" us on courteous, intelligent service and quality of product...You be the judge and if at any time we can benefit from your constructive criticism please let us have it, won't you? "Days" to bloom are as near to correct as our locality and growing experience has proven but it is only intended for a guide to help you to meet show and cutting dates. Classifications too may differ somewhat according to show committees in your section but on the whole we have tried to have them listed as near as our national authorities have determined them and our records show.

"Bulbs and cut flowers GROWN FOR PERFORMANCE"
.....is not just another slogan line.....it means just that we will do everything humanly possible to warrant your patronage and continued respect as catalogers of quality gladiolus...

Yours for a GLAD 1947

F. O. HOLMES & SONS

Hartley H. Holmes

....VARIETY COMMENT....

Our 10 favorites for 1946...

(growing favorites)

- | | |
|-----------------|-------------------|
| 1. LEADING LADY | 6. KING CLICK |
| 2. LADY JANE | 7. HIGH FINANCE |
| 3. GENGHIS KAHN | 8. SPOTLIGHT |
| 4. WHITE GOLD | 9. RED CHARM |
| 5. COLOSSUS | 10. SNOW PRINCESS |

We consider many more which we grow equally as beautiful in form of floret or color as these ten but for sheer satisfaction of growing these can hardly be beat. There are several however pushing these for top honors as "good doers." One is Purple Supreme...one of the best all-around growers in anybody's garden but occasionally it will slip its color in soggy weather. LEADING LADY is simply a lady in every respect and since we all love a woman for her womanly qualities it is only natural that we should love this one...she has everything, Beauty - Health and Vigor galore. We think she will lead the list for some time.

LADY JANE is another grower's delight...Dependable is her virtue as well as beauty...You can't be in business very long without dependable glads and this is one you can "depend" on for a near 100% crop of perfect spikes, can pass for a pale yellow too with those two lower creamy yellow lip petals. GENGHIS KAHN was a complete disappointment to us for two years but we guess it was planted in probably the worst part of our garden for two seasons in a row. This last season we gave our bulbs a good soaking in New Improved Ceresan and planted them along with our others on new ground and not without great misgivings too. But what a lot of beating that Glad will take. This variety came back in grand style and bloomed for us in all of its SCHEER beauty. We sold every spike we could cut from fours up and at premium prices too, and when we harvested the bulbs they were beauties with plenty of bulblets. One of the features about it we haven't liked heretofore was its supple stem but the florists to whom we sold it found it great for large piece work. We had a grand spike of it at the East Lansing Seedling and R.I. Show where it won in the single spike special Championship Class. We were so impressed with it that we were impelled to call Dr. Scheer long distance and express ourselves, gratefully for such a beautiful creation. This is one we are going along with.

WHITE GOLD has been one of our real stand-bys for a commercial for three years and we like her tremendously in spite of her "short comings" (head from small bulbs). You must plant large bulbs for best results. What a grower and bulb maker! COLOSSUS, we think has been way overlooked as an early commercial and show glad too. Try her and see for yourself. KING CLICK is "King" of our menage of reds and we have close to forty of them. RED CHARM is very close and a trifle different in tone, but a real grower and beauty. HIGH FINANCE won for us the Grand Championship at the Michigan Glad Society Show at Ann Arbor in 1945 and was again sectional Champ at S.E.M.G.S. Show in Detroit this last summer. It is a grand Fall color and to our way of thinking one of the best Smokey's out today, healthy and a strong grower for us.

SPOTLIGHT is a new yellow, of rather plain petals but high color value, and we are propagating it for a commercial. SNOW PRINCESS is just one of those fine, dependable glads that really belongs in every commercial planting today...and we think for several years yet. You can be sure of getting your money out of this grand White and she can hold her own too on the show table. The plant will set good seed and some very beautiful recent introductions have come from her lately. One of them is Prof. Chet. Kuhn's "White Magic."

Others we are growing and hope to catalog in quantity another season are...

ANNA MAE***	If you haven't this one you haven't "White."
BLACK DIAMOND****	This one was rightly named.
BUCKEYE BRONZE***	Another "Super" fall color.
COUTT'S ORCHID***	Just a little better than average, will stop you cold.
CONNECTICUT YANKEE****	Pinks are "a dime a dozen" but not this one!
CRINKLE CREAM****	No fancier can grow a collection without this one.
DRUM MAJOR***	Wilson's! thats all.
GOLDEN STATE****	They say a yellow Picardy..we say beautiful!
GRACIE ALLEN****	This lady has "form" to burn!
KENWOOD***	Christmas Red - we like any color as long as it's Red.
LAKE PLACID***	Another Wilson variety! - Carries its beauty to last florete....
LANCASTER****	Watch this purple....
MARSEILLAISE****	"Scheer" an a glad".....etc.
MYSTERY****	Our Canadian neighbors grow them beautiful - very beautiful...too!
RIO RITA***	Lins! What an orangeX!
ROYAL WINDSOR****	Not so breath taking, but a "real model Spike" from big bulbs.
SILVER WINGS****	Another Lady of Quality!
STARLET****	Here is a 200 class white with class!
TUT'S BOTH****	An orange "deluxe"

....and then there's CORONA (what can we add to this one), and JEANIE! ---- LANTANA, MISS WISCONSIN (we put this way down here so you wouldn't see it till the last, but don't say we didn't tell you about this one! X ?) and POET'S DREAM...a dream blooming, if we ever saw one...and how!...and lots of others too.

If we don't sell you this season ask us to keep you on our list for our 1948 catalog, won't you?

...TERMS...

- ** Cash with order and no order less than \$3.00, or
- *** 25% down...balance before shipment.
- **** 2% Discount on orders of \$50.00 to \$100.00...5% on orders over \$100.00.
- ***** All retail orders prepaid anywhere in U.S.A....Wholesale F.O.B. Detroit.
- ***** Follow all CULTURAL INSTRUCTIONS enclosed with each order as we cannot be held responsible for crop failures due to overdipping or planting in bad soils...Bad storage before planting too must be watched...Foresight care is far better than hindsight griping....

Continued on Page 5....

....TERMS....

The usual formula of pricing has been followed for the most part which is 8 times the single price for 10 and 8 times the 10 price for 100, but in some cases this is not true. Please do not split units, except that 5 may be had at the 10 price and 25 may be ordered at the 100 price. Substitutions for size will be made only if you say so in YOUR order. Acknowledgement of all orders will be made promptly.

***** Extras will be included in all RETAIL orders either of your choice or ours as you choose...count will be generous and no bulbs which we would not like to receive ourselves will be sent YOU...Your satisfaction will build our business and GOOD WILL...nothing else can...

Whenever you see..."Bulbs and cut flowers GROWN FOR PERFORMANCE" that means...

1947 INTRODUCTIONS

W. A. BEATON

GOLD STANDARD (Originator's Description) A giant size, formal type golden buff of enchanting beauty. The inner petals are a pure, clean golden yellow, while the outer petals are a rich golden buff. A modified ruffling and fluting adds to its appeal. 5-3/4" bloom, 18-20 buds with 8-10 immense blooms open and 6 to 8 buds in color. Florets are firmly attached and have excellent texture. It has a good facing and placement on a 54" straight, sturdy stem. The tip of each cut spike remains erect and blooms out perfectly. The florets retain large size with but little taper in the flower head. Bulblet production and germination heavy. It blooms in 90 days.

GOLD STANDARD has received enthusiastic acclaim by Detroit florists and commercial growers. Great florescence, sheer beauty in form and color, and acceptance either as buff, cream or light yellow make it an ideal florist glad. A very beautiful glad in a rare color.

PRICES: Large \$6.00 ea., Med. \$5.00 ea., Sm. \$4.00 ea.

Bulblets: 12 for \$6.00, sold only with the purchase of L. or M. bulbs. "No Discount." NOTE: We have watched this grow in the originator's garden from planting to flowering and feel that this is a real money maker. It has color and florescence particularly desirable for florist work and will hold its own on any show table. Was one of the 5 highest scoring entries at East Lansing in 1946 with score of 84.5.

1947 INTRODUCTIONS

W. A. BEATON

PRINCESS ROYAL (Originator's Description) A giant size, glorious white, with a faint lavender spear or feather. 6" bloom, 20-22 buds, 6-7 open on a long tapering head of 28 to 30". The plant is straight, sturdy and grows 60" tall. Florets have firm attachment and exceedingly heavy texture. Excellent facing and ideal placement. Opens perfectly when cut in bud. Bulblet production and germination unusually good. It blooms in 85 to 90 days and from bulblets.

PRINCESS ROYAL is an outstanding show glad as well as a grand variety for commercial use. Bloom from #3 and #4 bulbs bring top prices. Its performance during the five years of propagation has been consistently good under adverse weather conditions and without irrigation. Award of Merit and Giant size Champion at the 1946 Birmingham Seedling Show, its only appearance in competition. Bloomed too early for S.E.M.G.S. and M.G.S. '46 Shows.

PRICES: L. \$5.00 ea., M. \$4.00 ea., Sm. \$3.00 ea., Bbts. 50¢ ea., 12 for \$5.00. "No Discount." We offer this glad for sale strictly on its merits as a promising commercial because we sold hundreds of spikes to some of the most critical and discriminating florists whose approval of it was unanimous.

1947 INTRODUCTIONS

GEORGE V. SNYDER

TROJAN (Originator's Description) Coral Pink blending to buff yellow deep in throat, with raised midribs of slightly lighter shade. Blooms are ruffled, needle-pointed and of heaviest texture. Opens 8 or more 5 to 5½ inch blooms on 26" flowerheads, 22 buds. Height in field 55" or more. Scored 84 at the Washington State Trials. 83.5 at Michigan. It is an excellent propagator and a bright commercial prospect. It is a Golden Goddess X with Picardy. 85-90 days.

PRICES: \$5.00 any size. 10 bulblets for \$5.00, sold only with purchase of bulb. "No Discount." NOTE: We haven't grown this one yet, but have had a hand in urging the originator to introduce this beauty... DON'T MISS HERE.

-0-

KLONDIKE (Originator's Description) Ruffled, Deep Golden Yellow with faint inconspicuous red throat lines. Opens 8 blooms on 24" flowerheads with 18 to 20 buds. Height in field, 56". Blooms are heavy textured and strongly attached. Very fine keeping qualities and wonderful under artificial light. Award of Merit S.E.M.G.S. 1945, Brigham Young University Award 1946. Scored 82 at the Washington State Trial Garden. Golden Goddess X with Jasmine. 75 to 80 days. NOTE: This one will cut in bud and travel.

PRICES: \$5.00 any size. 10 bulblets for \$5.00, sold only with purchase of bulb. "No Discount."

-0-

1947 INTRODUCTIONS

GEORGE V. SNYDER

GOLDEN DRAGON (Originator's Description) Slightly ruffled very rich yellow. The tall 60" plants have flowerheads of 26" and carry 22 buds on which 8 or more $4\frac{1}{2}$ to 5" blooms are open. Very strong grower and blooms well from medium and small bulbs. Golden Goddess X with Maid of Orleans. 85 to 90 days.

PRICES: \$5.00 any size. 10 bulblets for \$5.00, sold only with purchase of bulb. "No Discount."

-0-

1947 INTRODUCTIONS

PROF. C. F. KUHN

WHITE MAGIC (Originator's Description) Snow Princess X Mary Elizabeth Class 500. Mid-season heavily ruffled, large flowered, clear white, heavily textured with formal placement, 50-54 inches tall, 20-24 buds, 6-7 open, 608 in color. This variety received Award of Merit and Best Seedling Award at S.E.M.G.S. and M.G.S. Shows. Also received the highest score at the Michigan State Trial Garden at East Lansing in '46. This variety has never scored less than 85.

PRICES: Large \$5.00, Med. \$3.50, Sm. \$2.50, bulblets 50¢ ea., 10 for \$4.00. "No Discount." NOTE: With two fine parents this one can't help but be beautiful. No one who really loves beautiful Gladiolus should miss buying this one. Can't predict commercial possibilities yet.

-0-

1946 INTRODUCTION

W. A. BEATON

ROYAL WINDSOR (Originator's Description) A very bright, formal type Spectrum Red (Fischer R4). $5\frac{1}{4}$ " bloom, 20 buds, with 8-10 open on a 54" plant. Florets are firmly attached, fluted and lightly waved. Excellent texture. Perfect placement. Sturdy stems. No crooked, kinked or bowed stems, or clubby heads in evidence.

ROYAL WINDSOR will open perfectly when cut in bud. Bulblet production very heavy and germination about 100%. It blooms in 80 to 85 days, and readily from bulblets. Award of Merit and Seedling Champion (score 88) at the Detroit Show in 1943, its only appearance in competition. (See 1946 N.E.G.S. Book for picture).

PRICES: L. \$3.00 ea., Med. \$2.00 ea., Sm. \$1.50 ea., Bbts. 30¢ ea., 12 for \$3.00. Commercial growers may purchase bbts. @ \$100.00 M. \$200.00 pt., \$300.00 qt., planting stock #5 \$96.00, #6 \$70.00 per hd. 50 bulbs @ hd. rate. Net Prices. NOTE: We have watched this one grow in originator's garden year after year and have yet to see a bad plant or bulb. Bloom opens from bud well and sells very readily.

F L A S H !!! "Mike" a third brother named by his parents...
 "Farrand O. Holmes, Jr." has just become a
 partner...Now let's see some of those father
 and sons teams come forward to match us.

F. O. HOLMES & SONS
 Farrand Sr.
 Hartley
 Russell
 Farrand Jr.

...and we do mean you

P.S. For 1948 we are planning a more complete descriptive
 catalog with interesting illustrations of plantings
 and varieties...Watch the New England Gladiolus Society
 publications for advertisements....

..... Do's and Dont's

Do.. buy good bulbs from reputable dealers and growers.....

Don't.. try to save money by buying cheaper bulbs and jeopardize your crop.....

Do.. take your bloom to a show... whether you grow one or one hundred.....

Don't.. try to be your own expert... "knowledge" is being gained by everyone.....

Do.. JOIN A..REGIONAL..STATE..OR NATIONAL..GLADIOLUS SOCIETY..OR ALL.....

.. THOSE INTERESTED MAY SEND US WITH THEIR ORDER \$1.00 FOR MEMBERSHIP IN
THE MICHIGAN GLADIOLUS SOCIETY..OR..SOUTH EASTERN MICH. GLADIOLUS SOC...
OR..\$2.50 FOR MEMBERSHIP IN ONE OF THE ABOVE TOGETHER WITH A MEMBERSHIP
IN...THE NEW ENGLAND GLADIOLUS SOCIETY. ANYONE WHO SENDS THE ABOVE WILL
RECEIVE AN EQUAL AMOUNT IN BULBS FROM US GRATIS.....

...THIS IS A REAL BARGAIN...
